The boson of that cit, said on Wednesias; "The new issue bank of itennessee in ore and State warrants receivable for taxes are very dull. Dealers buy at 36, and sell at 38c." There are inquiries made from a distance why some of the city coupons are on one value and others of another. Past due coupons previous to January, 1872, are receivable for taxes. Past due coupons of January, 1872, are pidd, face and in creat, on presentation at the proper city office. City or thous of July, 1872, are not receivable for taxes under the ruling of the present Mayor, but it is unders could that when he has has money enough he will pay them as he is paying the January, 1872. After the January, 1872, coupons, when there is again money enough in hand for the purpose. There is a car on the part of the majority of the citizens that the next July coupons may probably become due before the last January coupons are paid, in which event they, too must wait for the "good times that's coming," when there will be money enough in shall to take his cannies, "one down smother come on." If the Mayor's money-box only proves as stannoth as the modest Englishman claims his puck to be, the compons will all come "right side up to time." It we do not speak more confidently it is because we have got to if so many list in describing the matter, but at all events it can be seen why one alk months, past due confloors differs from another. COTTON.

The increase of receipts is, as usual, when the rising of the streams affords facilities for transit, affecting prices, but not in an important degree. The wants of cotton consumers is, this season, so great that even the advancing figures of receipts and estimates fall to influence prices in any important degree. To-day the felegrams report New 1 ork irregular at 10%c, Liverpool day in a Sicol, New Orienns active in fluerry, and the tablewere was an active inquery, and the tablewere was an active inquery, and the tablewere well scrut nized. Los collons were treated with supreme contempt, and a strong desire was expressed that certon growers should be made to understand that flower pot collon is most emphatically "sent to collens was expressed that or too growers should be made to understand that flower pot collon is most emphatically." Sent to collens the pay real estate planters may have on the marke that is forced in or covered with timber, when it is sold by the acre. When offered by the jound at cotton prices they think it too dear, even though it be put into the hadies flower-pots, to grow the most beautiful of Sou hern flower sand plants. Corn remained at the rates of the day before, sales being at 15050c. The St. Louis Democrat of Wed. easily reports: "torn was irregular. White was very slow and louer to sell from a half to one cent. Mixed was in good demand, and half a cen better." Outs in good demand, and half a cen beiter." Outs are scarce in this market; we heard of no sales. The St. Louis Democrat reports "hay flat—csa't be snipped." Brus brought \$2.2. The legal weight of oat in this State is objected to, and a committee of in-Chattanooga Board of Trade, in view of thirty-two pounds to the bushel being the standard of the United States, recommend that the State Legislature be requested to make the weight of oats in Tennesse conformable thereto." The Chattanooga scard of Trade appears to be a "live tustitution. Would it not be well for the Memp is Chamber of Commerce to write to its Secretary, and ascertain whence write to its Secretary, and ascertain whe the vitality of such institutions is obtained, and at once procure the article, whitever it may be? Dr. Wm. H. Tutt-bear Sir: In my young days I was inther wild, and became the victim of a loatisome disease. I was treated by an eminent physician and shought I was cured. After moving to this State, I was hor rified at finding that the disease was making its appearance again in a secondary form. Cleers formed in my mouth and on different parts of my body. I also became afflicted with severe rheumatism. I employed different physicians, and used various patent medicine for months, all to no purpose. During a visit to Jacksonville I saw your Sa sap rills and Quen's beliefs and concluded to try it. I have taken a dozen bottles, and be lieve that the poison is entirely driven from my system. I intend communing it, however to make a sure thing of it. At the request of your agent I send this to you. You are at liberty to use it as you like Yours respectfully JOHN H. ARTRES OF THE SYSTEM AND OTHERS APPERI AINING THERETO
Dr. CURTIS addresses those particularly
who have placed themselves under the care
of ignorant advertising charlatans, from
whom they have received no relief, and who
in fact, have done them more harm than
good. Medicine, like all other sciences, is
progressive, and every year denoustrates
an advance, by a combination of remedies of
great curative power. Dr. Curtis has so arranged his treatment that it will afford not
alone immediate relief, but permanent cure.
The Medical Times says: "Dr. Curtis system, the result of iwenty years' succession
practice, differs from all others in general
use, and cammends itself to the afflicted as
the only true source of relief. Many cases
